Education

ITS Engineering College, Greater Noida

Sept 2023 – June 2027

Bachelor of Technology (B.Tech) in Computer Science and Engineering
AKTU, Lucknow

Technical Skills

Languages	Python, SQL (MySQL)
Libraries	Pandas, NumPy, Scikit-learn
Data Analytics	Microsoft Excel, Power BI
Tools	Git, GitHub, VS Code
Concepts	Machine Learning, Artificial Intelligence, Data Analysis

Projects

KORE – Clinical Outcome Risk Evaluator

Mar 2026

Python — Scikit-learn — Random Forest — HTML — CSS — JavaScript — Chart.js — Power BI

- Developed an AI-powered web application to predict whether diabetic patients will be readmitted within 30 days of hospital discharge.
- Built and trained a Random Forest machine learning model using Scikit-learn and integrated interactive visualizations with Chart.js and Power BI.
- Designed a responsive user interface and deployed the application on Render for public access.
- **GitHub:** [View Repository](#) **Live Demo:** [Visit Website](#)

SafeHer – Women Safety Portal

June 2026

HTML — CSS — JavaScript

- Developed a women safety portal aligned with the United Nations Sustainable Development Goal (SDG 5 – Gender Equality).
- Implemented complaint filing, anonymous reporting, emergency SOS, case tracking, resource center, and an administrative dashboard.
- Designed a clean, responsive interface to improve accessibility and user experience.
- **GitHub:** [View Repository](#)

Achievements

- Completed Google's 5-Day AI Agents Intensive Course through Kaggle.
- Participated in HSIL Hackathon 2026 and TECHTRIX'25.
- Earned industry certifications in Cloud Computing, Data Analytics, and AI Foundations.

Certifications

- AWS Academy Graduate – Cloud Foundations
- Oracle AI Foundations Associate
- Introduction to Data Science – Cisco
- Data Analytics Virtual Experience – Forage
- GenAI Powered Data Analytics – Forage
- Google 5-Day AI Agents Intensive Course – Kaggle
